Workshops

Below is a list of our most popular workshops; the structure, content and timing of these events can be tailored to your specific requirements. Many of our sessions can be adapted to half- or full-day sessions, or even lunchtime seminars. We are also happy to work with you to design a bespoke training event to meet the needs of your organisation or institution.

GRANTS ACADEMY (THREE-DAY-WORKSHOP)

Learn how you can use building blocks of argument, detail and justification throughout the document to ensure that confidence is inspired in the reviewers.

TRICKS, TRAPS AND TECHNIQUES FOR BIDDING

This workshop covers the art of grant writing and is designed for all types of grant applications. It highlights many of the traps that applicants frequently fall into when writing proposals and some useful tricks and techniques that can be used to optimise applications.

THE FUNDING LANDSCAPE

This short course provides an overview of all major EU and UK funding opportunities.

EU FUNDING OPPORTUNITIES

Addresses how to prepare a successful EU application, whether for a single host or collaborative project.

FUNDER SPECIFIC TRAINING

Events can focus on any major UK funders (e.g. Research Councils, Innovate UK, Newton Fund, Global Challenges Research Fund, Wellcome Trust, Leverhulme Trust, British Academy, British Council).

AN INTRODUCTION TO TRAINING

Impact is a crucial component of research proposals and it is often the part that applicants find the most difficult to address. This workshop develops techniques and strategies for maximising the many and diverse arguments relating to the impact of their research.

FRAMING IDEAS FOR FUNDING

This workshop is designed to show how research ideas can be developed to fit specific calls by using worked examples across a range of challenges at various funding scales.
